

CAN THE GRANITE CLIFFS EYESORE BECOME A TOWN ASSET?

A Brownfields Site → Land Reuse Soils
Site

Productive reuse to vitalize our town!

BROWNFIELDS SITES

CONTAMINATED BUT NOT ENOUGH TO
BE CONSIDERED A SUPERFUND SITE.

*(OLD LANDFILLS, GAS STATIONS, FACTORIES,
MILLS, LAUNDRY FACILITIES, ETC..)*

OFTEN, IN A BROWNFIELDS SITE, THE LAND JUST SITS.

PEOPLE ARE AFRAID TO BUY IT, TEST IT, AND BE STUCK WITH BIG COSTS/CLEANUP.

HOWEVER, BENEFICIAL REUSE OF BROWNFIELDS SITES CAN MAKE THE AREA PRODUCTIVE- INCREASING JOBS, ACTIVITIES, A CLEAN SAFE ENVIRONMENT, AND REDEVELOPMENT.

FORMER BROWNFIELDS SITES IN NH INCLUDE THE SNHU ARENA IN MANCHESTER, MALLS, SKATING RINKS, SOLAR OR WIND FARMS, PARKS, ETC.

NHDES LISTS BROWNFIELDS
SITES AND OFFERS GUIDANCE.

THE EPA HAS BROWNFIELDS
FUNDS AND GRANTS TO HELP
WITH REMEDIATION/CLEANUP.

LAND REUSE SOILS (LRS)

MULTIPLE DEFINITIONS OF CLEANUP METHODS:

REMOVE SOIL FROM SITE AND REUSE IT ELSEWHERE

REMOVE SOIL FROM SITE, TREAT, AND REUSE

SITE REMAINS CONTAMINATED, BUT IS CAPPED AND
MONITORED OVER TIME
