

# NHE Prep Quiz #13

## Wildlife Wonders

***Did You Know?***

**New Hampshire's  
state raptor is the  
red-tailed hawk.**

*Look for the answer beneath Quiz #14*

Quiz #12 Answer:

**Answer:** Canterbury fine sandy loam, 15 to 25 percent slopes, very stony.

**Explanation:** The soil map unit that the red x represents is 167D on the map. Next, using the legend to the left, we see that 167D corresponds to Canterbury fine sandy loam, 15 to 25 percent slopes, very stony.

*See finding interpretive soil maps on the [resources page](#) for more help with this question.*
