

TURN YOUR LOCAL STREAM INTO A CLASSROOM

NH FISH & GAME WATERSHED EDUCATION PROGRAM

Water Quality Monitoring Workshop

In this hands-on workshop from the NH Fish & Game Watershed Education Program, educators will use the Volunteer Biological Assessment Protocol (VBAP) to explore stream health through macroinvertebrate sampling, water-quality monitoring, and mapping tools.

Participants will:

- ✓ Learn to collect and identify aquatic invertebrates
- ✓ Practice sampling and monitoring techniques
- ✓ Explore how biological indicators show stream health
- ✓ Discover how ArcGIS can represent watershed data

Educators who complete this training may request to borrow sampling gear for stream studies with their students.

Workshop Details

Audience: K-12 Educators

Date: September 24th, 2026

Time: 9-4pm

Location: Gunstock Mountain Resort
719 Cherry Valley Rd,
Gilford, NH 03249

Cost: Free!
