

Envirothon prep materials:

- Field Book For Describing and Sampling Soil field guide
 - Field guide that describes pretty much everything you could need to know about describing soils in the field. It has a texture triangle, structure images, rock descriptions, etc.
 - Pdf of the book: <https://www.nrcs.usda.gov/sites/default/files/2025-01/Field-Book-for-Describing-and-Sampling-Soils-v4.pdf>
 - Link to order a (free) physical copy:
<https://nrcspad.sc.egov.usda.gov/DistributionCenter/product.aspx?ProductID=991> (currently out of stock but hopefully will come back in stock to order soon)
- Munsell color chart
 - Most important/most used pages are 10YR, 7.5YR and 2.5YR
 - There are sets of two pages available (10YR and 7.5YR) for ~\$85 rather than having to buy the whole book
 - Pdf of a couple common pages for reference:
<https://soils.uga.edu/files/2016/08/Munsell.pdf>
- Soil/putty knife
- Tape Measure
- Clinometer/something to measure slope
