Outdoor Education

# KYLE LOMBARD

Forest Health Specialist

## ➤ EDUCATION AND WORK EXPERIENCE

My path started with the Thompson School of Applied Science at UNH

## ➤ TYPICAL DAY

- Traveling to a property somewhere in NH to evaluate a forest pest issue
- Giving a presentation to a group of foresters
- Office work on reports, data and email.

## ➤ FAVORITE PART OF THE JOB

Meeting landowners throughout the state on their property and helping them with forest health issues.

## ➤ OTHER INTERESTING ASPECTS OF THE JOB

- Monitoring and managing forest pest outbreaks often involves flying in a small airplane
- Digging insects out of pool filters
- Setting up hundreds of pheromone traps
- Working in a lab
- Enforcing firewood quarantines
- Working with foresters in other states
- Doing newspaper interviews
- Giving educational talks
- Performing pesticide treatments
- Driving 15,000 miles a year over the back roads of NH
