

NHE Prep Quiz #7

Wildlife Wonders

ANIMAL SIGN

RACCOON

COTTONTAIL RABBIT

RED FOX

BEAVER

Look for the answer beneath Quiz #8.

Quiz #6 Answer:

Answer: 7.5YR 4/2.

Explanation: We write soil colors at page number followed by hue and chroma separated by a slash.

In this case

- 7.5YR is our page number (seen at the top of the page)
- Our hue is the value on the y axis which is 4
- The chroma is the value on the x axis which is 2
 - Thus, this soil color is 7.5YR 4/2

See Instructions on how to use a Munsell color chart on the NHE Soils and Land Use [resources page](#) for more help with this question.
